

ISAR Bioscience

ISAR Bioscience GmbH is a newly founded translational research company in Planegg near Munich, supported by the Free State of Bavaria. Our research focuses on degenerative diseases of the brain (Alzheimer's), the heart (infarction, cardiac insufficiency) and the immune system. In doing so, we enter into strategic partnerships with research institutions and industrial companies.

To expand our "Immunology + Medicine" team, we are filling the position full-time as of 15.09.2020

Scientist – Post Doc (gn)

Primary responsibilities

- Isolate peripheral blood monocytes (PBMCs), preparation of lymphocytes
- T- and B lymphocyte assays, including peptide stimulation, cytokine release and FACS
- Critically analyze and interpret data and define realistic timelines for studies
- Work closely with and communicate results to internal teams as well as to external partners

Qualifications

- PhD in Biology, Immunology or a related discipline
- Experience in immunology is a plus
- Good command of English (both written and spoken); Knowledge of German is an advantage

Our offer

We offer you the special opportunity to accompany and help shape the development of a new research company in an interdisciplinary team with pioneering spirit. You will be given exciting tasks with responsibility and room for initiative and personal development. The salary depends on your qualifications and professional experience and is calculated in accordance with the customs of the civil service. The position is initially limited until 31.12.2022. There is the possibility of an extension for another two years.

Please send your cover letter and complete application documents with CV, references/ recommendation letter to recruitment@isarbioscience.de. Please indicate "Scientist – post doc immunology" in the subject line. If you have any questions, please contact Prof. Dr. Martin Ungerer or Dr. Christiane Schiegerl, Tel: 089-356475-413.
